

# Statement of Compliance

## RE: Bag Component

Medegen Medical Products uses only virgin PP (polypropylene) resins in its manufacturing process. These resins are pre-compounded with erucamide slip and diatomaceous earth anti-block components. No purchased recycled or post-consumer recycled products are used. Based on information provided to Medegen Medical Products by its raw material and outsource suppliers and, after review of our product formulations and production processes, we find that the ingredient materials used in the manufacturing process of our entire product line **do not** include or contain any of the following substances:

Asbestos	Hexachlorobutadiene (CAS No 87-68-3)
Latex	Hexachlorocyclohexane (CAS 58-89-9)
BPA	Hexachloroethane (CAS 67-72-1)
DMF	Ozone Depleting Substances/Isomers
Radioactive Substances	Azocolorants and Azodyes
Synthetic Musk	Chlorinated or Brominated Dioxins or Furans
Vinyl Chloride (CAS 75-01-4)	Ethyl-/Methyl-Glycols and their Acetates
Animal Byproducts	Silicone
Perchlorate Compounds	
Perfluorooctanyl Sulphoric Acid and its Salts (PFOS)	
Phenol and its compounds, selected	
Polychlorinated Naphthalenes	
Polycyclic Aromatic Hydrocarbons (PAH, creosote), selected	
Halogenated Aromatic Substances (HAS), selected	
Halogenated Diphenyl Methanes	
Man-made vitreous (silicate) fibers (with random orientation with oxides of sodium, potassium, calcium, magnesium and barium content > 18% by mass)	
Fluorinated Greenhouse Gases Compounds (HCFCs, HFC, PFC, SF6, etc.)	
Formaldehyde (CAS 50-00-0)	
Polychlorinated Biphenyls (PCBs) and Polychlorinated Terphenyls (PCTs)	
Tributyl Tin (TBT), Triphenyl Tin (TPT) and Tributyl Tin Oxide (TBTO) compounds, selected
